Please Note: The list of Covered Complications in this document is all-inclusive. If you should have a complication that is not listed or if your complication is not severe enough for you to seek care in an ER, hospital, or accredited surgical center there is no coverage available. The only exception to this is if you are sent to a physician or outpatient facility to determine whether or not you are experiencing an infection, deep vein thrombosis, or blood clot. This can be done in a non-hospital setting. If you do receive treatment for a Covered Complication, Medical Expenses are payable for 6 months from the date of the original Covered Complication or until the limit is exhausted. Any expenses not covered by CosmetAssure are your responsibility. CosmetAssure should be run as secondary insurance, or primary if no other insurance exists. Coverage is underwritten by Lone Star Alliance, a Risk Retention Group.

I have been given the CosmetAssure Brochure and I understand the information listed herein. I have been given the opportunity to ask questions and my questions have been answered fully about this coverage.
